

REMARKS

According to the Examiner, the present application fails to comply with the requirements of 37 C.F.R. 1.821 through 1.825 regarding the submission of nucleotide and/or amino acid sequences, on the basis that residue 7 of SEQ ID NO: 9 is allegedly missing an explanation. Applicants submit such explanation was indeed provided; however residue 7 was inadvertently labeled by Applicants as residue 6. Accordingly, Applicants submit herewith a new Sequence Listing correcting this typographical error. Applicants have also amended the application to update the paragraph that incorporates the text copy of the Sequence Listing submitted herewith.

The sequence listing submitted herewith, and the above amendment include no new matter that goes beyond the original application as filed. Applicants respectfully submit that the above-identified application is in compliance with 37 C.F.R. §§ 1.821-1.825 and WIPO Standard 25.

The Director is authorized to charge any additional fees due by way of this Amendment, or credit any overpayment, to our Deposit Account No. 19-1090.

Respectfully submitted,
